

GOVERNOR (1977-1985 : MATHESON) [446]

FEDERAL CORRESPONDENCE, 1975-1984.

8.45 cu. ft. and 22 reels of microfilm

DESCRIPTION: This series contains correspondence, reports, and other materials generated by the interaction between Governor Matheson's office and federal agencies and offices. These materials reflect the role of federal agencies in the development of state policies and federal policies that affect Utah. Of particular note are the materials generated by the Department of Agriculture (including the National Forest Service) and the Department of the Interior (including the Bureau of Land Management and the National Park Service), all of which deal with the development and management of Utah lands, including the possible creation of Lone Peak Wilderness Area in 1977, and somewhat extensive correspondence between Matheson and the Secretary of the Interior, Cecil D. Andrus. Of additional interest may be materials on the proposal to relocate "Weteye" nerve gas bombs from Rocky Mountain Arsenal in Colorado to the Tooele Army Depot in Utah; those materials may be found under the Department of the Army in this series.

ARRANGEMENT: This series is arranged alphabetically by federal agency, federal office, or topic. Folders may be further broken down alphabetically by subject, thereunder chronologically by day.

RELATED RECORDS: For additional materials regarding land development and use in Utah, consult Series 19161 , NATURAL RESOURCES WORKING FILES. See also Series 19410 , WETEYE NERVE GAS BOMB RECORDS for additional materials relating to the transfer of Weteye bombs to Utah. Researchers may wish to consult Series 4532 , STATE AGENCY CORRESPONDENCE, for state-level agencies that are akin to these federal agencies.

PROCESSING NOTE: This series will be microfilmed and the hard copy will be kept

because of the intrinsic value of the papers. It was processed by Kira Robertson in September 2001.

PREFERRED CITATION: Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

GAPS: Researchers looking for materials regarding the MX missile system and related Air Force correspondence should consult Series 1646 , MX MISSILE RECORDS instead.
